Prince Asumadu | Résumé

Education

Kwame Nkrumah University of Science and Technology

Ghana

BSc. Mathematics

09/2019 - 11/2023

- o **GPA**: (73.61/100.00)
- Relevant Coursework: Real/Complex/Functional/Numerical Analysis, Differential/Integral Equations, PDE,
 Optimization, Scientific Computing, etc.

Experience

Research

Dynamic Evacuation Plan for A Building Complex Using Network Optimization

Supervisor: Prof. Peter Amoako-Yirenkyi

Undergraduate Thesis, 04/2023 – 08/2023

- Developed a "dynamic" and "static" optimization model that combines to find the shortest path to an exit from a given location in a building, avoiding paths that are blocked by certain hazards during an emergency.
- O Tested the model on the Aboagye Menyah Complex, a building in KNUST, Ghana.
- O Run multiple simulations to test the model's efficiency.

Research Assistant

National Institute for Mathematical Sciences, Ghana

Supervisor: Mr. Evander Nana Bosomefi Eghan

10/2023 - Present

O Assisting with research on industrial modeling.

Teaching

Teaching Assistant

KNUST, Ghana

Instructor: Prof. Peter Amoako-Yirenkyi

10/2023 - Present

O Scientific Computing, PDE, Differential Equations.

Volunteer Substitute Teacher

Kumasi Academy, Ghana

Substituted for: Mr. Kenndy Kamkam

Ghana Ports and Harbor Authority

08/2019 - 09/2019

Taught Elective Mathematics Class

Internships

Tema, Ghana

Intern

10/2022 - 12/2022

IT Department

- Monitored network servers and assisted in solving network issue include fiber optics.
- O Provided technical support to employees of other departments.

Manhyia Hospital

Intern

Kumasi, Ghana *09/2021 – 11/2021*

Research Department

- O Conducted weekly surveys on childbirth at the hospital, analyzed data and wrote report on findings.
- O Reported detailed weekly findings to supervisor.
- O Conducted research on patient and employee satisfaction at the hospital.

Skills

o Programming: C, Python, R, MATLAB, MPI, LaTeX, Bash Scripting, GIT CLI

o Language: English, Twi

o Software: SPSS

Interests

Research

 $\circ \ \mathsf{Scientific} \ \mathsf{Computing} \qquad \qquad \circ \ \mathsf{Numerical} \ \mathsf{Analysis}$

 \circ High Performance Computing \circ Optimization Modeling

Other

Computer HardwareProgramming

Al (Artificial Intelligence)Japanese Language

Conferences / Training

O High Performance Computing for Sustainable Development: April 2023

o Deep Learning Indaba: September 2023

o Data Science Change Workshop: Uniting Academia & Industry: December 2023
